

Enterprise Scorecard

Measure What Matters Most

Why Enterprise Scorecard?

Enterprise Scorecard provides corporations with the tools to better understand the key drivers affecting performance. It effectively manages the decision making cycle of planning, modeling, measuring, reporting, analyzing and acting.

Enterprise Scorecard delivers on the promise of effortless implementation, low cost of ownership, and rich functionality.

Key Features

A straight forward set-up environment allows for sophisticated data modeling and effortless maintenance.

- Comprehensive notes functionality
- Responsive and flexible modeling and design
- Powerful and extensive import/export functionality and the ability to link multiple databases
- Multi-dimensional drill-down reporting
- Adaptable set-up and security
- Support for all performance management methodologies

Measure Performance

Enterprise Scorecard enables performance measurement initiatives to be implemented more rapidly, facilitates the use of existing financial and non-financial key performance indicators, and makes a results-based culture possible.

- Multiple, user-derived dimensions, measures, and attributes
- Extensive user-defined periods and units
- Numerous roll-up methods

Enterprise Scorecard allows decision makers to determine if the company is meeting its strategic goals, discover opportunities for process improvement, and recognize performance problems before they have a financial impact.

Enterprise Scorecard

Enterprise Scorecard

- Identify if your company is meeting its strategic goals
- Discover opportunities for process improvement
- Recognize performance problems

Flexible Modeling

Enterprise Scorecard provides a comprehensive, understandable, and straightforward environment to keep information on all key performance indicators.

- Supports n-dimensional matrix organizations
- Quick and easy roll-up and drill down functionality
- Comprehensive import/export of setup structure and data

Robust Reporting and Advanced Analytics

Enterprise Scorecard satisfies the advanced reporting standards demanded by organizations. The customizable graphical displays supply an up-to-the-minute, multi-metric view of organizational performance.

- Summarize, cross-tabulate and analyze key performance measures
- User-defined exception styles to highlight exceptional performance
- Fully-customizable and colour-coded exception-based dashboards and comprehensive graphing
- Multi-dimensional views through powerful data cubes and Online Analytical Processing (OLAP) cubes
- Extensive integrated notes providing enhanced insight into results, objects, measures and roll-ups

Enterprise Scorecard presents the results using dashboards, advanced graphics, OLAP cubes, roll-up reports or Microsoft Excel.
