

Re-Formatter

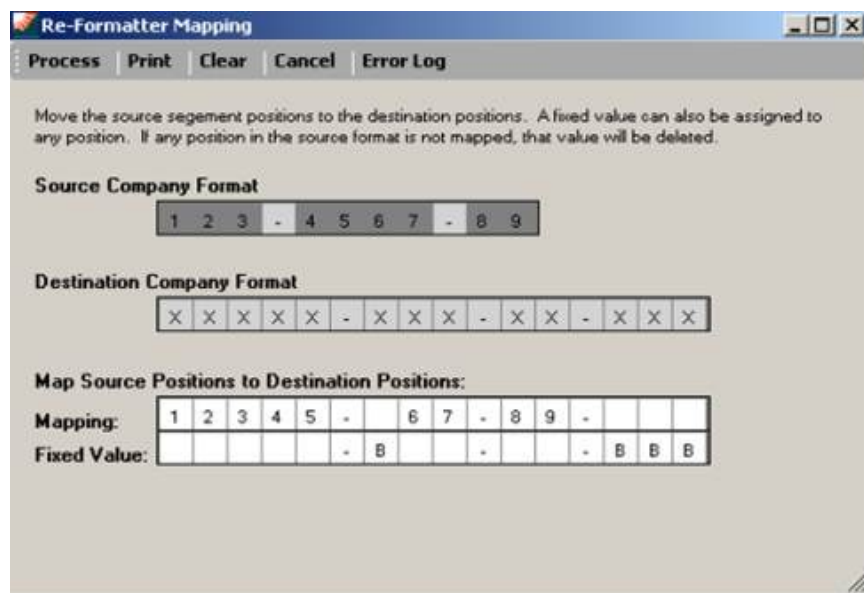

Reformat the Account Framework

Modify Account Format

Developed to meet the needs of Microsoft Dynamics GP customers, Re-Formatte modifies the account framework and format of Microsoft Dynamics GP data. Users can change the only decision that their Microsoft Dynamics GP business management system required them to make during implementation.

Re-Formatter

- Maintains the integrity of financial systems during periods of organizational restructuring and growth
- Offers control over the Chart of Accounts
- Modifies the account structure to enhance reporting requirements and improve data output

Re-Formatter seamlessly reformats the Chart of Accounts and Account Structure, instantaneously altering the format of all data.

Re-Formatter can change

- Maximum account length
- Segment size
- Number of segments
- Sorting options

With Re-Formatter, all historical data is modified as the old account format is mapped to the new account format.

Re-Formatter

CRG Solutions for Microsoft Dynamics GP

Data Automation

- Changer (CfMD)

- emPerform

Fast and Effective

With a few simple steps, Microsoft Dynamics GP users can transform their “old” data format into a “new” and improved account structure.

Additional Microsoft Dynamics GP Modules*

Corporate Renaissance Group (CRG) understands that many customers have implemented third party solutions to enhance the value and increase the return of their Microsoft Dynamics GP investment. Re-Formatter has a third party option—all the data in third party applications and modules can be updated.

*On Microsoft Dynamics for MS SQL Server and MSDE platform only.
