

Changer

Change and Merge Microsoft Dynamics GP Data

Does your organization need to...

- *Combine general ledger accounts, vendor IDs or customer IDs?*
- *Change project numbers or contract numbers in the Microsoft Dynamics GP Project Accounting module?*
- *Keep pace with organizational growth and restructuring?*

Modify and Consolidate Data

Developed to meet the needs of Microsoft Dynamics™ GP customers, Changer™ efficiently enables the modification and consolidation of Microsoft Dynamics GP data. Changer easily changes and merges general ledger accounts, vendor IDs, employee IDs, item numbers, customer IDs, project numbers and contract numbers for all current and historical transactions.

Transactions associated with all codes are automatically transferred to the new numbers and IDs with no trace to the original information. Drill downs, balances and reports will treat the modified information as if it had been posted to the new account from the beginning.

Dynamic Functionality

The distinctive changing and merging functionality of Changer allows for the adjustment to the following Microsoft Dynamics GP modules, including all associated data, information and transactions:

- **General Ledger (GL)**
Change or consolidate general ledger account numbers.
- **Receivables Management (RM)**
Change customer identification numbers to an existing or new customer ID.
- **Payables Management (PM)**
Change vendor identification numbers to an existing or new vendor ID.
- **Inventory (IV)**
Change and merge item numbers.
- **Payroll (PR)**
Change employee IDs.
- **Project Accounting (PA)**
Change project numbers and contract numbers.

Changer can also update data from other Microsoft Dynamics modules and various third-party applications.

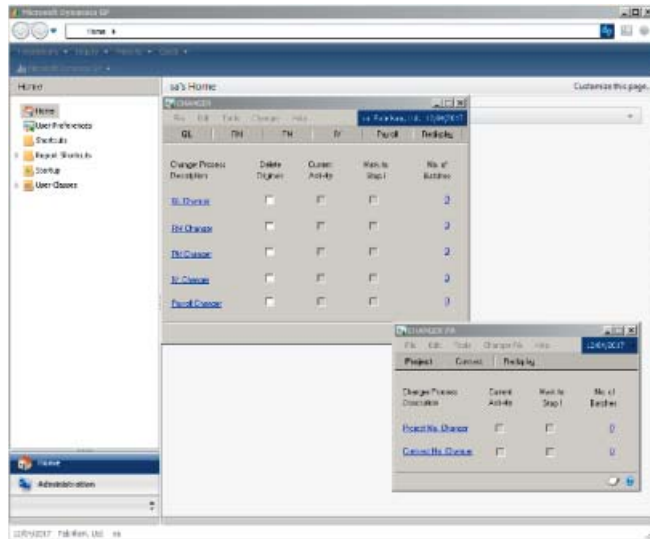

Changer

Changer can modify and consolidate the following current and historical Microsoft Dynamics GP data:

- Account Numbers
- Customer Numbers
- Vendor ID Numbers
- Item Numbers
- Employee ID Numbers
- Project Numbers
- Contract Numbers

- *Manage your business management system data at optimum efficiency*
- *Take control of your user-defined codes*
- *Ensure your Microsoft Dynamics GP business data evolves with organizational growth and restructuring*

Changer by CRG is Certified for Microsoft Dynamics GP.
