

AA Tools

Maximize your Analytical Accounting Investment

AA Tools will allow you to:

- *Backfill Analytical Accounting transaction dimension codes in a regular batch update routine*
- *Change and merge Analytical Accounting transaction dimension codes*
- *Convert general ledger segments to Analytical Accounting transaction dimensions*

The promise of Analytical Accounting in Microsoft Dynamics® GP is simple. It allows you to track additional information at a transaction level without impacting the general ledger structure or number of GL accounts. This helps to create a robust information platform for monitoring and analysis.

You want to realize the full potential of Analytical Accounting, BUT...

- You have limited resources and it would take too much data entry time to capture all necessary information using Analytical Accounting transaction dimension codes.
- You already have information in Analytical Accounting and the dimension codes have changed or need to be consolidated.
- You have GL account segments that you would like to convert to Analytical Accounting transaction dimensions.

Realize the Promise of Analytical Accounting with CRG AA Tools

CRG AA Tools consists of a series of modules that will allow you to maximize your investment in Microsoft Dynamics GP and Analytical Accounting.

AA Backfiller

Populate analysis information for un-posted, posted as well as historical transactions for select journal entries.

AA Changer

Change and merge transaction dimension codes.

AA SegmentConverter

Convert GL account segment values to transaction dimension codes.

AA Tools is brought to you by the makers of CRG Changer™.

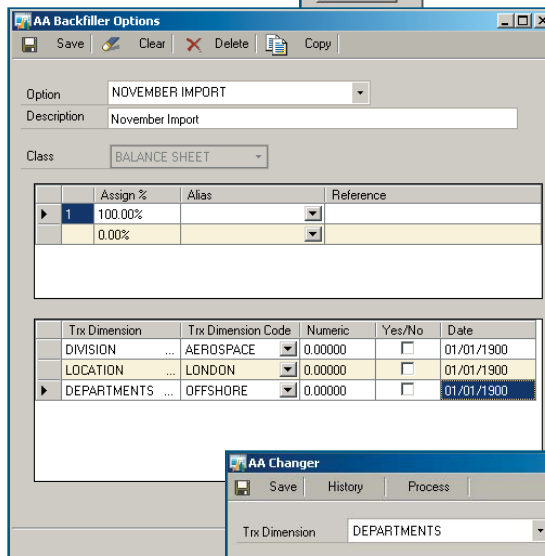

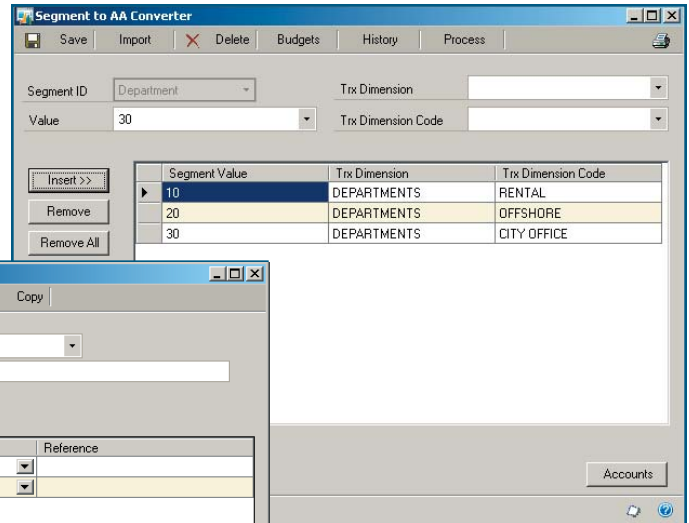

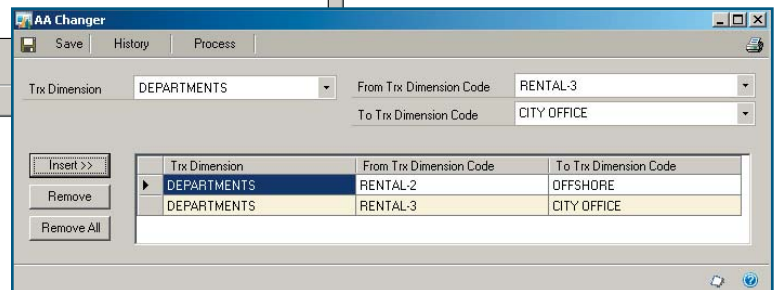

AA Tools

Information Analysis, Not Data Entry

You will be able to spend your time on the things that really matter, analyzing the information that is vital to your business, not inputting and managing dimension codes.

With AA Tools, you can ensure that the data in Analytical Accounting is consistent, accurate and ready-to-use.

A Tools will help you:

- *Save time*
- *Complete complex analysis*
- *Manage your account structure*
- *Automate routine activities*
