

CRG Reporting and Analytics

Business Intelligence

CRG Reporting & Analytics:

- Leverages the Microsoft® Business Intelligence suite of products:

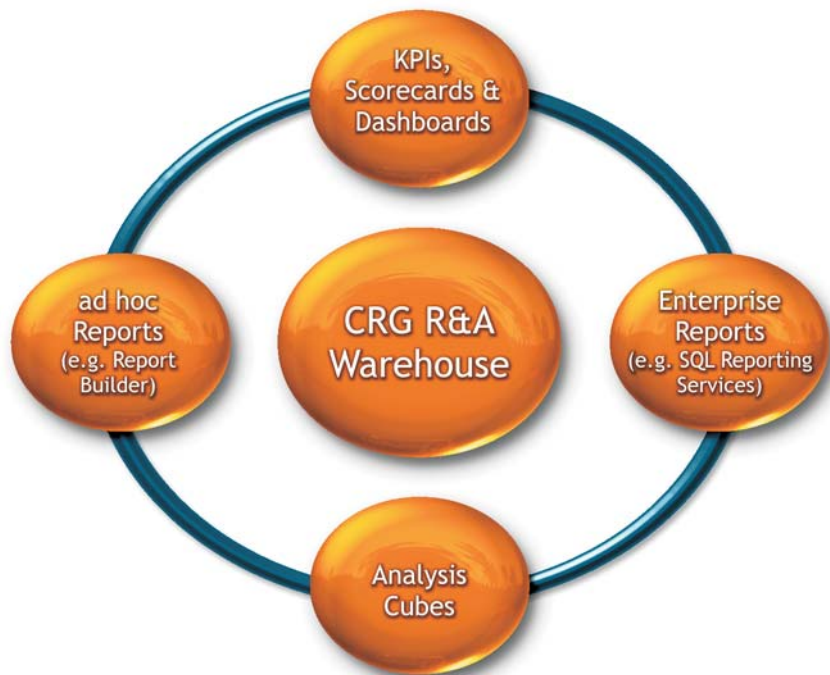

Microsoft Office Excel® 2007, Microsoft SQL Server™ 2005, SQL Server Reporting Services & Report Builder, ProClarity™ Analytics 6 and Microsoft Office PerformancePoint™ Server 2007

- Delivers web-based, on-demand management briefing books, dashboards, scorecards and KPIs.
- Satisfies individual and enterprise wide reporting requirements.
- Integrates with other BI vendors, including Cognos

The CRG Reporting and Analytics Business Intelligence (BI) solution brings together Microsoft technology and CRG expertise that will provide you with a custom-tailored solution that meets your unique requirements. It has the capability to satisfy all of your enterprise-wide reporting and analytics needs. The CRG BI solution provides everyone in your organization with essential business information.

The CRG R&A Warehouse

This BI solution is centered on the CRG Reporting and Analytics (R&A) Warehouse. The R&A Warehouse allows you to leverage your existing systems by integrating information from all areas of your organizational data systems. All of the data that you need for reporting and analysis is available in the R&A Warehouse.

This BI solution is customized to meet your organization’s specific requirements. The modular nature allows you to build your solution one component at a time, or all at once.

CRG Reporting and Analytics

“CRG designed and built our custom BI solution, integrating our 3rd party revenue management system with Dynamics GP. It has given us a ‘Fortune 500 BI solution’ at a fraction of the cost. We are very pleased with the functionality and our return on investment.”

Martin Pitson,

Sr. Director Information Services

Watchfire Corporation,

Kanata, Ontario, Canada
