

Project Cost Cubes

Extend the Analytical and Reporting Capabilities of Project Cost by Olympic Systems

Report and analyze information in Project Cost:

- Employee
- Time Period
- Project
- Task
- Customer
- And more...

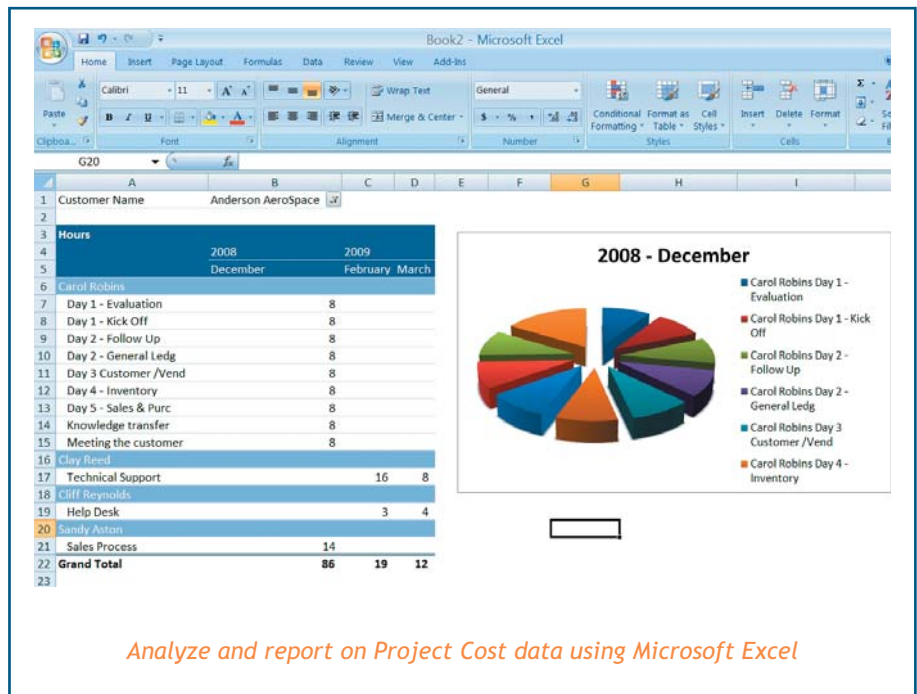

Have you ever wondered...

*Where are you spending your time and resources?
Which clients and employees generate the most billable hours?
How much time did it take to complete a project?*

You already have the answers to these questions and more: they can all be found in Project Cost by Olympic Systems. And now you have a way to easily access this information...Project Cost Cubes.

Project Cost Cubes

Project Cost Cubes provides users of Project Cost the ability to conduct detailed reporting and analytics on the many different fields and dimensions contained within the application.

Analyze and report on Project Cost data using Microsoft Excel

Brought to you
by the makers of
CRG Changer™

You can create your own ad hoc reports: explore, examine and analyze your own data with Microsoft Office Excel® whenever you need the information.

Project Cost Cubes

Why Project Cost Cubes?

You have a wealth of information contained in Project Cost from Olympic Systems: information that can be used to plan and improve productivity. Project Cost Cubes gives you the ability to easily uncover that information at your convenience.

With Project Cost Cubes, you can complete detailed analytics, drilling down to the transaction level.

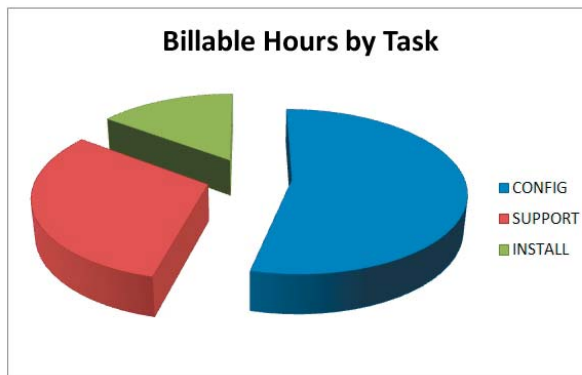

“Project Cost Cubes offer comprehensive and robust analytical capabilities and are a great fit for users of Project Cost. End users can complete analysis on their data and create their own detailed ad hoc reports.”
